

Domain Name Law and Practice

February 2005	Turkey	Part II: The ccTLD (".tr") Registration Conditions and Procedures
	Type of update: A new sub-domain name ".dr.tr"	
	<p>In February 2005 the Turkish Registry "ODTÜ" introduced a second-level domain: ".dr.tr". Registration is open for professional use by doctors of medical science who are registered with the Turkish Medical Association (TMA), medical partnerships, hospitals, and health organizations of The Ministry of Health of Turkey.</p> <p>Applications for registration must include documents which prove that the applicant belongs to one of the groups which qualify for a ".dr.tr" domain. Registrations are accepted on a first come first served basis.</p>
