

Blackstone's Employment Law Practice 2007**New**

John Bowers QC, *Barrister, Littleton Chambers, Recorder, and Master of the Bench at Middle Temple*, Damian Brown, *Barrister, Old Square Chambers*, Anthony Korn, *Barrister, No. 5 Chambers*, Gavin Mansfield, *Barrister, Littleton Chambers*, Julia Palca, *Solicitor, Partner, Olswang*, Catherine Taylor, *Solicitor, Partner, Olswang*.

Contributor: Jonathan Schwarz, *Barrister, 3 Temple Gardens Tax Chambers*

Blackstone's Employment Law Practice 2007 is a tailor-made reference for practitioners advising and representing parties in employment litigation in the employment tribunal or civil courts. Completely self-contained, the book draws together into one portable single volume the relevant legislation, procedural rules, Codes of Practice, and Practice Directions, and offers authoritative in-depth analysis from a team of highly respected practitioners.

Blackstone's Employment Law Practice 2007 provides complete coverage of practice and procedure in the employment tribunal, Employment Appeal Tribunal and Central Arbitration Committee, as well as employment issues in the High Court and Court of Appeal. It is fully up to date with the latest developments in law and procedure, and provides expert guidance on the key areas of substantive law - including summaries of the leading cases.

The Oxford Handbook of Pensions and Retirement Income**New**

Gordon L. Clark, *Halford Mackinder Professor of Geography, University of Oxford*, Alicia H. Munnell, *Peter F. Drucker Chair in Management Sciences, Carroll School of Management, Boston College*, and J. Michael Orszag, *Head of Research, Watson Wyatt*

The Oxford Handbook of Pensions and Retirement Income is the only comprehensive review available of the latest research, policy-related tools, analytical methods and techniques, and major theoretical frameworks and principles of pension and retirement income. Featuring over forty contributions from leading academic and professional experts, *The Handbook* draws on research from a range of academic disciplines to reflect on the implications for current and future provision of pension and retirement income of demographic ageing, the changing financial circumstances of nation states, and globalization. An indispensable desk reference for researchers and practitioners in the area, it is also essential for policymakers and those with broad interests which include this very important area.

Labour Law, Work, and Family

Critical and Comparative Perspectives

Edited by Joanne Conaghan, *Professor of Law, University of Kent*, and Kerry Rittich, *Associate Professor in the Faculty of Law and the Women's Studies Programme at the University of Toronto*.

The book focuses on the relationship between work and family in the context of debate about labor law and regulation. It considers not just the position of women workers (paid and unpaid) or the current preoccupation of states with developing more family-friendly workplaces but it looks at these issues within the broader context of changes taking place in the world of work as a consequence of globalization.

Working Together

How Workplace Bonds Strengthen a Diverse Democracy

Cynthia Estlund, *Sulzbacher Professor of Law, Columbia University*

'It is not easy piecing together statistical evidence, social science research, and political theory. Professor Estlund gracefully accomplishes this task... Working Together is a thought-provoking and scholarly work... its implications for improving inter-group communications and democracy should serve as a counter-argument in the ongoing debate about unintended results of modern worklife.'

— *New York Law Journal**'A richly textured, unflinching, and progressive analysis'*— *Work and Occupations*

This book explores the paradoxical nature and the paramount importance of workplace bonds in a diverse democratic society. It stakes a claim for the value of the millions of conversations that take place every day among co-workers. It argues for a closer look at the role of law in realizing the democratic possibilities of working together. Workplace interactions are constrained by economic power and necessity, and are circumscribed by a staggering array of governmental regulations. Paradoxically, it is the involuntariness of workplace interactions — prescribed by both external law and internal constraints — which helps ensure that the often-troubled and often-failed project of racial integration succeeds at work. People can be forced to get along — not without friction, but with surprising success.

The Law of Work**New**Rosemary Owens, *Reader in Law, University of Adelaide* Riley

The Law of Work is a re-conceptualization of the subject matter of the Australian law of workplace relations according to its fundamental principles. By identifying its subject matter as the 'law of work' it signals its concerns as broader than those encompassed in the traditional conception of labor and industrial relations law. The book reflects the authors' conviction that social and economic context is of critical importance to an understanding of the law. It presents a principled approach to its subject matter and offers students the opportunity to re-evaluate the nature, scope and importance of employment and labor law.

The Law of the Labour Market

Industrialization, Employment, and Legal Evolution

Simon Deakin, *Robert Monks Professor of Corporate Governance, University of Cambridge*, and Frank Wilkinson, *Emeritus Reader in Applied Economics, University of Cambridge and Visiting Professor, Birkbeck College, University of London*

This book examines the evolution of the contract of employment in Britain through an investigation of changes in its juridical form during and since the industrial revolution. The initial conditions of industrialization and the subsequent growth of a particular type of welfare state have decisively shaped the evolutionary path of British labour and social security law. The implications of this historical perspective for modern conceptualizations of the labour market, and in particular for current proposals to move 'beyond' the employment model, are addressed.

**EU Intervention in Domestic Labour Law**Phil Syrpis, *Senior Lecturer in Law, University of Bristol*

This monograph explores the case for European Union intervention in domestic labor law. It sets out the various arguments which can be made for EU intervention, and goes on to consider the different ways in which the EU has intervened, exploring the implications of the shifts in policy-making technique. It provides a framework to enable the reader to think about the role the EU does, and should, play in this field.
